Custom text-view for "Partner Company" (acdoca.rassc).
SAP-delivered view I_Partnercompany was not working properly.
Source table:
T880 - "Global Company Data (for KONS Ledger)"

Change-log:
-----
JIRA-5840, 12.02.2020, Freek Keijzer
In first version, field t880.langu was used for Language.
However, field does not mean language of text, but language
of Company.
Therefore now fixed value for Language.
