

/* Freek Keijzer, myBrand, 02.06.2020

Final view for User Status of Order.

In this view the string is composed.

Layered structure of CDS-views:

```
  ZP_LOG_AUFNR_UserStat      - View for User Status of Order
|- ZP_LOG_AUFK_JEST_Str      - Preparation for composition of string
  |- ZP_LOG_AUFK_JEST_Ag     - Aggregation of dataset to 1 line per order
    |- ZP_LOG_AUFK_JEST      - "Flip" dataset from rows to columns
      |- ZB_LOG_AUFK_JEST     - View with basic data
        |- aufk              - Table "Order master data "
        |- jest              - Table "Individual Object Status "
        |- t003o             - Table "Order Types "
        |- tj30t             - Table "Texts for User Status "
```

Change log:

-----*/
@EndUserText.label: 'LOG: User Status of Order'
